

21st Century Instructional Initiative Grant Recipients 2016-2017

Breaking Boundaries

Hebbsville Elementary School

**Sandra Wilkins, Principal
Brandon Menikheim, Grant
Liaison**

Global Awareness

Through engagement in this project, students were able to widen their perspectives and build cultural awareness on a global level.

Through proposed writing themes, in addition to a culture box exchange, students were encouraged to use inquisition and curiosity as a method to deepen their understanding of others. Gaining an appreciation for the lack of homogeneity that exists around the world instilled in students the ability to communicate, collaborate and problem solve with other people from diverse cultures.

- Instructional extension and skill strengthening of vital concepts
- Letter writing abilities; form, content, clarity
- Self analysis of writing development
- Importance of detail in conveying thought.
