

21st Century Instructional Initiative Grant Recipients 2016-2017

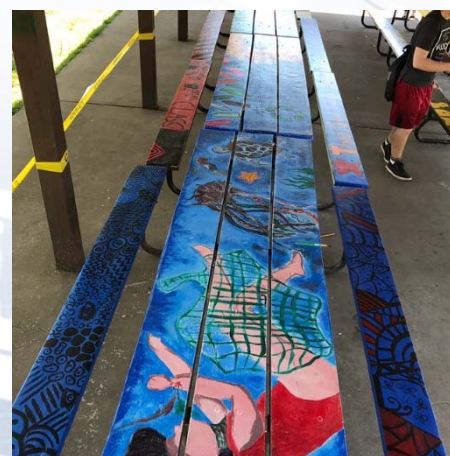

Hillcrest Park Initiative

Lansdowne High School

Kenneth Miller, Principal
Bethany Dentes, Grant Liaison
Arts & Culture, Environmental &
Civic Literacy

A collaborative project between Lansdowne High School and Baltimore County Parks & Recreation aimed to clean up and revitalize Hillcrest Park. The activities included refinishing and painting park picnic tables, participating in an environmental science field trip with the Chesapeake Bay Foundation, advertising the spring community park clean up, and creating artworks focused around ecology.

- Build deeper understanding of natural environment & surrounding community.
- Allow students to realize their critical role of cultural competence.
- Identify and document the art making process in order to develop a personal response to a problem.
