

Districts

Workbench Education gives your district the freedom to replace costly curriculum with content your teachers are creating. Your teacher leaders and instructional coaches are already sharing great ideas - capitalize on what they generate by making it easy to search, find, share, assign, and assess the ideas that work best in your schools in a shared library of projects.

- Scale the impact of the best projects in the district
- Projects and curriculum your teachers already create become shareable & searchable
- Save teachers' time by using existing projects by other teachers in the district

Schools

Workbench Platform enables teachers to discover, create and share their content, assign projects to students and view their progress all in one place!

- Saves time in lesson prep because teachers can create or modify project content to meet the needs of each student
- Educators can collaborate on content more efficiently
- Enables tracking of student progress and support them to create a portfolio of their work
- Prepare for student showcases with projects that help parents understand the work in your classrooms

Teachers

Workbench empowers teachers to manage their classes' diverse needs while teaching with cross-curricular projects, and building confidence with technology.

- Find standards-aligned projects by grade, topic, or standard
- Customize projects for your class or even a specific student in minutes
- Easily create and assign your new project, then share it with your colleagues
- Track your students' progress on projects to give you visibility and develop their accountability
- Single place for programming projects with robots, circuits, drones and other gear
