Learning as We Grow: Food & Sustainability

Perry Hall Elementary
Linda Miller

Anne Marie Martinelli
Instructional Focus

Environmental/Health Literacy

- Hands on-Real World STEM activity
- Students grew, harvested & ate their own hydroponic microgreens.
- Students discovered how to grow their own sustainable food, even in small spaces.
- Students were inspired to think about greener ways of producing and consuming food.
- Students engaged in demonstrating their learning about sustainable food and waste behaviors with parents & community members during Family Night.
